ABOUT ME

I was born in Peterborough, Ontario on October 23rd, 1997 at 5:30 pm. I'm personally not into astrology but my sun sign is Scorpio and my rising is Aries and my moon falls in Leo. I've been told I act more like an Aries than a Scorpio, which makes a lot of sense personally. My life goal is to make a difference in some way possible and reach my better self in years to come. I believe if you want to be better you can be better, that's my motto.
